Prof. Dr. med. Luca Papavero, Dr. med. Markus Pietrek and Dr. med. Nawar Ali

Dear participant,

if you agree that the treatment of disc herniations and stenosis at the lumbar and cervical level is the workhorse of your daily surgical practice then you should have a closer look at this Course. Maybe you consider getting microsurgical skills or improving them: could also be a good reason to attend.

The central idea of the event is „paying attention to details“: this applies to the clinical and imaging decision making algorithm taught in the case discussions as well as to the surgical steps trained during the CadLab. Furthermore, you will have the opportunity to simulate situations „when things go wrong“ and to get tips from experienced faculties.

Our goals will be met if you will leave the Course with the confidence to be able to improve the treatment of your patients at home.

Luca Papavero

Markus Pietrek

Nawar Ali

Clinic for Spine Surgery
Schoen Clinic Hamburg Eilbek
Hamburg, Germany

Friday, November 17, 2023
