Dear Participant,

at Medicon, we take pride in being a trusted partner for medical professionals worldwide. For decades, we have dedicated ourselves to advancing the proper care, maintenance, and repair of surgical instruments—ensuring their longevity and optimal performance.

Our Medicon Course „Repair and Maintenance - Advanced Training“ is tailored for professionals looking to deepen their expertise. This course goes beyond the basics, offering advanced techniques and in-depth knowledge for maintaining and repairing surgical instruments to the highest standards.

Join us in Tuttlingen, a hub of innovation in the medical technology industry, for an engaging and interactive learning experience. Take the opportunity to expand your skills and gain valuable insights into the art and science of surgical instrument repair and maintenance.

We look forward to welcoming you!

Medicon eG
Tuttlingen, Germany

Arrival Sunday, March 01, 2026

Monday, March 02 - Thursday, March 05

Various topics, structured into theory and practice, including the following:

- Product and material knowledge (specialized instruments)
- Technical assessment, cost-effectiveness and repair standards
- Challenges and requirements for specialized product groups
- Advanced manufacturing techniques and inspection criteria
- Repair steps for specialized instruments (e.g., jointed, demountable)
- Enhanced skills (filing, grinding, drilling, etc.)
- Final inspection and situational problem-solving

The final program will be shared at a later stage.
